

**High-performance**

**Induction WOK "PROFI" with  
glass-ceramic cuvette**

**quick  
and effective**

# Der Bohner

## Models

# High-performance Induction WOK "PROFI" with glass – ceramic cuvette

	Cooking hob	External dimensions B x D	Cuvette Ø	Power consumption	Type	Height
BI 10 WOK-M3		400 x 400 mm	300 mm	5,0 kW/400 V	<b>A =</b> <b>Table-top appliances</b>	200 mm
BI 10 WOK-M4		650 x 650 mm	400 mm	10,0 kW/400 V		310 mm
BI 10 WOK-M5		650 x 650 mm	500 mm	10,0 kW/400 V		310 mm

A further installation variant is provided by **K = installation KIT**. This loose installation set, comprising 1 induction coil in an inductor carrier, 1 induction generator in 1 generator box, operating elements and optional air channel extensions enables flexible installation.

## BOHNER Induction WOK with glass-ceramic cuvette "an enrichment for every kitchen"

### Which WOK meals will be on your menu in future?

- Saving of energy up to 80 % depending on the field of application.
- Current consumption only if the WOK pan is in use thanks to recognition system.
- About 40 % more output in à-la-carte operation.
- Energy available immediately, infinitely adjustable without pre-heating time.
- Minimum preparation time, thus optimum degree of efficiency.
- Pleasant room and working climate as the Induction WOK doesn't radiate any heat.
- Minimum cleaning requirements, no scorching of residues of meals or food containing sugar.
- Exhaust air systems can be dimensioned smaller and cheaper.

BI 10 WOK-M3 A

**BOHNER®**

**Induction generators have been tested all over Europe.**

BI 10 WOK-M5 A

BI 10 WOK-M5 A with CNS pan

- ◆ Concentrated power thanks to 10.0 kW induction generator for peak outputs if larger amounts have to be prepared.
- ◆ Optimum use of energy.
- ◆ Lowest possible EMC radiation thanks to the specific construction secured by protective rights.
